PREREQUISITE WAIVER PETITION - - AEROSPACE ENGINEERING

All Aerospace Engineering undergraduate students are expected to meet the appropriate prerequisite and corequisite requirements, as specified in the AE curriculum, in order to enroll in a given course. However, we realize that in rare circumstances an advisor and/or instructor may feel that a particular student's enrollment in a course is justified because of that student's specific circumstances, experience, and/or their previous or current enrollment in other courses.

If you feel that there is sufficient reason to waive certain departmental pre and/or corequisites in order to allow a student to be enrolled in your course, the AE Department will take that into consideration. Please indicate below which requirements you propose be waived for a particular student and provide a brief explanation of why.

To be filled out by faculty advisor and instructor

I respectfully request the following prerequisite(s) and/or corequisite(s) be waived:

Prerequisite(s) or Corequisite(s) For (Name of course)

Reasons for waiving requirements:

_____ _____ _____
